Invest directly in deep impact

By opening an RSF Social Investment Fund account, you will directly support loans to for-profit and nonprofit enterprises working to solve complex social and environmental problems. This is a high-impact investment that provides a unique combination of benefits:

Engagement with social enterprises
You can get to know these transformative enterprises through stories in our publications and the opportunity to participate in community pricing gatherings, which bring investors and entrepreneurs together to inform interest rates.

Transparent impact
You can be confident you’re investing in real impact because we evaluate borrowers for their transformative potential and mission performance, as well as for financial strength. And we profile borrowers on our website so you can see who you’re supporting.

Accessibility
You can open a Social Investment Fund account with $1,000, and with a three-month term, it is a very flexible investment note. It takes only 5 to 10 minutes to open an account online.

Join us. Because what you do with your money matters.

For more information, please contact us at 415-561-3900 or sif@rsfsocialfinance.org.

There are certain risks that you should understand before you invest. These, along with a complete description of the investment, are included in the Prospectus. This is not an offer to sell, nor a solicitation of an offer to buy, securities. Such offering is made solely by the Prospectus, and only in states where authorized.
Social Enterprise Highlights

Social Investment Fund accounts support over 100 social enterprises working in food & agriculture, education & the arts, and climate & environment.

**FOOD & AGRICULTURE**

**Madécasse**
madecasse.com

Madécasse produces high-quality chocolate within Madagascar using locally-sourced cocoa beans. Founded in 2008 by former Peace Corps volunteers, the social enterprise is integrated into the country’s most impoverished communities and crosses challenging environments to purchase organic cocoa directly from farmers. In doing so, Madécasse can source the highest quality beans, pay farmers more for their crop, and you get a better chocolate bar.

**Viva Farms**
viva farms.org

Based in Washington’s Skagit Valley, Viva Farms supports a new generation of farmers through an incubator program that provides new farmers with affordable access to education, training and technical assistance, capital, markets and land. The enterprise also provides graduates of the program with access to capital and business development training as they scale their businesses.

**EDUCATION & THE ARTS**

**Alabama Waldorf School**
alabamawaldorf.org

Alabama Waldorf School has a mission to cultivate healthy, confident, compassionate learners who excel academically, socially, and civicly. Located in Birmingham, the school serves pre-school through grade eight. It aims to be a beacon for the community, offering a vibrant future grounded in an engaged, compassionate, and insightful understanding of the world.

**LUMBERYARD**
lumberyard.org

LUMBERYARD supports diverse performing artists with technical residencies. At partner venues in New York City and its campus in Catskill, New York, it offers artists unrestricted theater access and a support network that enables artistic freedom. The non-profit also partners with Catskill residents to bring cultural and economic vitality to the region via artist meet-n-greets, youth arts programming, and more.

**CLIMATE & ENVIRONMENT**

**Eureka Recycling**
eurekarecycling.org

Based in Saint Paul, Eureka Recycling is one of the largest non-profit recyclers in the United States and the only organization in Minnesota that specializes in zero-waste. Eureka Recycling provides recycling services to the Twin Cities with a mission to demonstrate that waste is preventable, not inevitable.

**Rocky Mountain Institute**
.rmi.org

The Rocky Mountain Institute transforms global energy use to create a clean, prosperous, and secure low-carbon future. RMI employs research and analysis to develop insights and then collaborates with businesses, institutions, and entrepreneurs to accelerate the adoption of market-based solutions that cost-effectively shift from fossil fuels to efficiency and renewables.
