Report of Independent Auditors

The Board of Directors
Rudolf Steiner Foundation, Inc. dba: RSF Social Finance and Affiliates

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Rudolf Steiner Foundation, Inc. dba: RSF Social Finance and Affiliates (“RSF”), which comprise the consolidated statements of financial position as of December 31, 2020 and 2019, and the related consolidated statements of activities, functional expenses and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management’s Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Rudolf Steiner Foundation, Inc. dba: RSF Social Finance and Affiliates as of December 31, 2020 and 2019, and the changes in their net assets and their cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Consolidated Financial Statements

NOTE 1 – ORGANIZATION

Rudolf Steiner Foundation, Inc. dba RSF Social Finance was incorporated in 1936. As a not-for-profit financial intermediary, RSF Social Finance and its affiliates (“RSF”) create impact by funding social enterprises that contribute to a more just, regenerative and compassionate world. RSF carries out its services on a worldwide basis through philanthropic services, social investment, lending, grant making, advising, and educational programs. RSF’s focus areas include food and agriculture, education and the arts, and climate and environment. RSF has over 2,000 clients who are creating a deeply positive impact by helping to redirect the flow of money to catalytic initiatives and organizations, and to support communities often damaged by exploitation and resource depletion. RSF has two primary programs to support its charitable mission: lending to social enterprises funded by its Social Investment Fund (SIF) and philanthropic giving and impact investing through donor advised fund accounts and various field of interest funds that flow capital to social enterprises.

SIF Investor Notes Program – RSF offers individuals and organizations the ability to invest in unsecured notes as part of the SIF Investor Notes Program. The notes mature and pay interest at the end of each calendar quarter, and principal and interest are automatically reinvested or, if an investor requests, repaid at maturity. RSF sets the interest rate for the notes effective as of the first day of each calendar quarter. See Note 6 – Notes Payable.

Lending Program – Proceeds from the SIF Investor Notes Program are used by RSF to make loans to a broad range of mission-related social enterprises in the fields of sustainable agriculture, education and the arts, and climate and environment. Borrowers are evaluated on factors such as creditworthiness, social mission, supplier and customer practices, community engagement, and environmental regeneration. See Note 3 – Loans Receivable, Net.

Integrated Capital Initiative Program – Proceeds from the SIF Investor Notes Program are used by RSF to make loans to enterprises that are working to solve complex social and environmental problems through the coordinated use of different forms of financial capital and nonfinancial resources (e.g., grants, guaranties, equity investments, and connecting borrowers to mission-aligned partners in their respective fields of operations).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation – In accordance with the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Not-for-Profit Entities, these consolidated financial statements include the accounts of SIF and RSF Capital Management, PBC (“CMP”). RSF appoints the majority of the directors of SIF and CMP and has an economic interest in these entities. All intercompany transactions and accounts have been eliminated in the consolidation.

Basis of Presentation – The consolidated financial statements have been prepared on an accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“US GAAP”).

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Description of Net Assets – RSF reports information regarding its consolidated financial position and activities according to two classes of net assets. *Without donor restrictions* is defined as that portion of net assets that has no use or time restrictions. RSF maintained reserves designated by its Board of Directors of \$4,946,750 as of December 31, 2020 and \$5,194,776 as of December 31, 2019. These reserves are considered net assets without donor restrictions. *With donor restrictions* is defined as that portion of net assets that consist of a restriction on the specific use or the occurrence of a certain future event. Net assets with donor restrictions were \$582,105 and \$150,000 as of December 31, 2020 and 2019, respectively.

Use of Estimates – In preparing consolidated financial statements in conformity with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates include the allowance for loan losses, allocation of functional expenses and fair value measurement. Actual results could differ from those estimates.

Cash and Cash Equivalents – RSF considers all highly-liquid investments with an initial maturity of three months or less when purchased to be cash equivalents. Money market accounts and certificates of deposit that are intended for long-term investment purposes are classified separately under investments.

Mission-Related Investments – Mission-related investments are investments in which RSF intends to generate a social return as well as a financial return. Such investments are related to, and further RSF's programmatic mission. See Note 4 – Investments and Fair Value Measurements.

Mission-Related Loans Receivable – These consist of mission-related loans made by RSF to nonprofit and for-profit organizations. The loans are generally collateralized by mortgages, business assets, guaranties and pledges from individuals and organizations. These loans are reported at their outstanding principal balances together with accrued interest and fees, net of any unamortized costs on originated loans. RSF has the ability and intent to hold the loans for the foreseeable future. While loans receivable are categorized by type for disclosure purposes, management believes that each category has a similar risk of repayment. See Note 3 – Loans Receivable, Net.

Allowance for loan losses – The allowance reflects management's best estimate of losses inherent in the loan portfolio. The allowance is increased by provisions for loan losses charged against earnings and reduced by charge-offs, net of recoveries.

Management has established a process to determine the adequacy of the allowance for loan losses that assesses the risks and losses inherent in the portfolio, including adverse situations that may affect the borrower's ability to repay, the estimated value of any underlying collateral, and historical loss experience. Management also considers economic uncertainties and other subjective factors, including industry trends.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

The overall allowance consists of:

1. Specific allowances for individually identified impaired loans FASB ASC 310-10 and
2. General allowances for pools of loans ASC 450-20, which incorporates quantitative (e.g. historical loan loss rates) and qualitative risk factors (e.g. portfolio growth and trends, credit concentrations, economic and regulatory factors, etc.).

Management has an experienced team that works with borrowers to help them through financial challenges that could affect their ability to make loan payments. If the financial position of certain borrowers improves over time, it may be possible to recover part of the allowance for loan losses and take the recovered amount back into income.

Nonaccrual loans – Generally, loans are placed on nonaccrual status when one or more of the following occurs:

1. The scheduled loan payment becomes 90 days past due;
2. It becomes probable that the client cannot or will not make scheduled payments;
3. Full repayment of interest and principal is not expected; and
4. The loan displays potential loss characteristics.

It is RSF's policy to classify all loans past due 90 days as substandard and place the loans on nonaccrual status.

When placed on nonaccrual, RSF reverses the recorded unpaid interest, and any subsequent payments shall be applied first to principal. Loans placed on nonaccrual are generally deemed impaired.

Loans may be returned to accrual status when one and/or more of the following conditions have been met:

1. All payments (according to the original terms of the loan) are brought current;
2. A 6-month period of satisfactory payment history has been established; and
3. A current evaluation of the client indicates the ability to repay the loan according to the original terms.

Impaired loans – Impairment is considered to exist when it is probable that not all amounts will be collected due under the terms of the loan receivable. Factors considered by management in determining whether a loan is impaired include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due.

Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management determines the significance of payment delays and payment shortfalls on case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Loans are considered impaired when the individual evaluation of current information regarding the borrower's financial condition, loan collateral, are impaired and/or cash flows indicate RSF will be unable to collect all amounts due according to the contractual terms of the loan agreement, including interest payments. Impairment is measured based on the present value of the expected future cash flows discounts at the loan's effective interest rate, or the fair value of the collateral, less costs to sell, if the loan is collateral dependent.

If management determines the value of the impaired loan is less than the recorded investment in the loan, RSF includes the impairment in the calculation of the overall allowance for loan losses.

Generally, a loan is written off when it is deemed to be uncollectible. Collateral dependent loans are written down to the fair value of the collateral and noncollateral dependent loans are written down to the net realizable value.

Troubled Debt Restructuring ("TDR") – Management strives to identify borrowers in financial difficulty early and work with them to modify their loan to more affordable terms before it reaches nonaccrual status. A restructuring of a debt constitutes a TDR if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Concessions could include a reduction in the interest rate to a rate that is below market on the loan, payment extensions, forgiveness of principal, forbearance, and other actions designed to maximize collections.

TDRs are separately identified in impairment disclosures and are measured at the present value of estimated future cash flows using the loan's effective rate at inception. If a TDR is considered to be a collateral dependent loan, the loan is reported net, at the fair value of the collateral. For TDRs that subsequently default, management determines the amount of reserve in accordance with the accounting policy for the allowance for loan losses.

Investments – RSF records investments with readily determinable fair values at their fair values. Stock gifts received from donors are recorded as gift income at the fair value of the stock gifts on the date of donation. Gains and losses and investment income derived from investments are accounted for as with or without donor-imposed restrictions based on restrictions, if any, in the accompanying consolidated statements of activities.

The fair values were evaluated by RSF to determine if the values should be adjusted. Factors considered included, but are not limited to, estimates of liquidation value, prices of recent transactions in the same or similar entities, current performance, future expectations of the particular investment, and changes in market outlook and the financing environment. Valuations are reviewed at least annually using a variety of qualitative factors to subjectively determine the most appropriate valuation methodologies.

Investments are reported at fair value based on quoted market price, net asset value reported by fund managers, or a market approach method which derives fair value by reference to observable valuation measures for comparable companies or assets such as performance metrics. Net appreciation or depreciation in investments, including realized gains or losses and unrealized appreciation or depreciation on those investments, as well as all dividends, interest, and other investment income, is reported in the consolidated statements of activities. Investment income is reported as an increase in net assets with or without donor restrictions, unless there are donor-imposed restrictions on the use of the income.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Fair Value Measurements – Fair values of financial instruments are estimated using relevant market information and other assumptions, as more fully disclosed below. Fair value estimates involve uncertainties and matters of significant judgment regarding interest rates, credit risk, prepayments, and other factors, especially in the absence of broad markets for particular items. Changes in assumptions or in market conditions could significantly affect these estimates.

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

Level 1 – Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2 – Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 – Significant unobservable inputs that reflect a company's own assumptions and may include significant management judgment and estimation.

RSF used the following methods and significant assumptions to estimate fair value:

Impaired Loans – are recorded at the lower of cost or fair value and thus are subject to fair value adjustments on a nonrecurring basis. The fair value of impaired loans with specific allocations of the allowance for loan losses is generally based on recent real estate appraisals, less estimated selling costs, if the loan is collateral dependent. Generally, a 10% discount is used to estimate selling costs. Appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the independent appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and typically result in a Level 3 classification of the inputs for determining fair value. Nonreal estate collateral may be valued using an appraisal, net book value per the borrower's financial statements, or aging reports, adjusted or discounted based on management's historical knowledge, changes in market conditions from the time of the valuation, and management's expertise and knowledge of the client and client's business, resulting in a Level 3 fair value classification.

Investments Held at Cost – Investments held at cost represent notes and closely-held stock. Investments in notes represent direct investments in loans by donors and are measured at cost less impairment and are adjusted for observable price changes in orderly transactions for the identical or similar investments of the same issuer. There were no adjustments for observable inputs. These investments are evaluated for impairment annually and written down when appropriate. As of December 31, 2020 and 2019, no such write-downs have occurred.

Prepaid Expenses – Any expenses paid prior to the related services rendered will be recorded as prepaid expenses. These prepaid expenses will be expensed once the service has been rendered or over the course of the contract period, such as for insurance policies.

Rudolf Steiner Foundation, Inc.

dba: RSF Social Finance and Affiliates

Notes to Financial Statements

Notes Payable – Notes payable are liabilities consisting of both investor notes and another loan facility made to RSF by individuals and organizations for specified periods, depending on the terms of the agreements with the other parties.

Revenue Recognition – RSF records certain revenue from contracts with customers in accordance with ASC Topic 606, "Revenue from Contracts with Customers" ("Topic 606"). Under Topic 606, RSF must identify the contract with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract, and recognize revenue when (or as) RSF satisfies a performance obligation.

Certain sources of revenue are derived from interest and dividends earned on loans, investment securities, and other financial instruments that are not within the scope of Topic 606. All revenue from contracts with customers in the scope of Topic 606 is recognized in noninterest income. Sources of revenue from contracts with customers that are in the scope of Topic 606 include the following:

Management Fees – RSF earns management fees from customers for services rendered on assets under management related to donor advised fund and other charitable funds accounts. Fees charged to these accounts on a monthly basis are recognized as the performance obligation is satisfied at the end of the service period. The performance obligation is completed as the transaction occurs and the fees are recognized at the time each specific service is provided to the account holders.

RSF has evaluated the nature of its contracts with customers and determined that further disaggregation of revenue from contracts with customers into more granular categories beyond what is presented in the consolidated statement of activities was not necessary. RSF generally fully satisfies its performance obligations on its contracts with customers as services are rendered and the transaction prices are typically fixed; charged either on a periodic basis, or based on activity. Because performance obligations are satisfied as services are rendered and the transaction prices are fixed, there is limited judgment involved in applying Topic 606 that significantly affects the determination of the amount and timing of revenue from contracts with customers.

Program Revenue – Program revenue primarily consists of grant revenue. Grant revenues are recognized as net assets without donor restrictions as services are recognized in accordance with Accounting Standard Update ("ASU") 2018-08. Grants are considered to be a conditional contribution and the contribution is met when the services are performed and/or expenses are incurred.

Gifts and Contributions – Gifts and contributions consist principally of donations from individuals and organizations.

Gifts and contributions are recorded as with or without donor restrictions depending on the existence and/or nature of any donor restrictions. Net assets with donor restrictions are reclassified to net assets without donor restrictions upon satisfaction of the time or purpose restrictions. Support with donor restrictions is reported as an increase in net assets without donor restrictions if the restriction expires in the reporting period in which the support is recognized. All other donor-restricted support is reported as an increase in net assets with donor restrictions.

When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the accompanying consolidated statements of activities as net assets released from restrictions.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Donated Services – RSF generally pays for services requiring specific expertise. However, many individuals volunteer their time and perform a variety of tasks that assist RSF. The services of volunteers, while often significant in value, do not meet the criteria for financial statement recognition and, accordingly, are not presented in these accompanying consolidated financial statements.

Interest and Fee Income – Most of RSF's income is derived from lending activities. Loans are generally offered at a base rate plus or minus a spread. The base rate charged on loans receivable is adjusted periodically in response to changing market and economic conditions among other factors. At December 31, 2020 and 2019, the base rates in place were 5.00% and 5.50%, respectively.

RSF also generates one-time origination fees ranging from 0.50% to 2.00% of the loan balance on new loans and upon the extension of the maturity date of existing loans.

Grants Made – Grants are recognized when all significant conditions are met by grantees, all due diligence has been completed, and they are approved by management. Conditional grants are expensed and considered payable only in the period the conditions are substantially satisfied. There were no conditional grants for the years ended December 31, 2020 and 2019.

Functional Expense Allocation – The costs of RSF's various programs and other activities have been summarized on a functional basis in the accompanying consolidated statements of activities. Expenses directly identifiable with programs are charged to program services. Supporting services include overhead expenses not directly identifiable with programs but which provide for overall support and direction of RSF. Supporting service expenses were allocated among programs based on the estimated time spent on these functions by specific employees. RSF is not involved in the solicitation of contributions and, as such, no fundraising expenses are incurred.

Income Taxes – RSF (excluding CMP), are qualified organizations exempt from federal and California income taxes under, respectively, (i) Section 501(c)(3) of the Internal Revenue Code ("IRC") as an organization described under Sections 509(a)(1) and 170(b)(1)(A)(vi) of the IRC with respect to RSF and Section 509(a)(3) of the IRC with respect to SIF and GCF and (ii) Section 23701d of the California Revenue and Taxation Code.

CMP pays both federal and state income tax on its taxable income. Income taxes are provided for the tax effect of transactions reported in the accompanying consolidated financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial and income tax reporting purposes. The deferred tax assets and liabilities represent future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. A valuation allowance is established against deferred tax assets if, in management's opinion, it is more likely than not that all or a portion of such deferred tax assets will not be fully realized.

Accounting principles generally accepted in the United States of America prescribes recognition thresholds and measurement attributes for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Tax benefits will be recognized only if a tax position is more-likely- than-not sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized will be the largest amount of tax benefit that is greater than 50% likely being realized on examination. For tax positions not meeting the more-likely-than-not test, no tax benefit will be recorded. Management has concluded that there are no tax benefits or liabilities to be recognized at December 31, 2020 and 2019.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

RSF would recognize interest and penalties related to unrecognized tax benefits in interest and income tax expense, respectively. RSF has no amounts accrued for interest or penalties for the years ended December 31, 2020 and 2019. RSF does not expect the total amount of unrecognized tax benefits to significantly change in the next 12 months.

Recent Accounting Pronouncements – In 2018, the FASB issued ASU No. 2018-13, *Fair Value Measurements (Topic 820)*, which modifies the disclosure requirements for Fair Value Measurement, including cost and benefits. Management adopted ASU 2018-13 for the year ended December 31, 2020; however, the adoption did not have a significant impact to the consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. The amendments in this ASU intend to increase transparency and comparability among organizations by recognizing an asset, which represents the right to use the asset for the lease term, and a lease liability, which is a lessee's obligation to make lease payments measured on a discounted basis. This ASU generally applies to leasing arrangements exceeding a twelve-month term. ASU 2016-02 is effective for nonpublic entities for annual periods, including interim periods within those annual periods beginning after December 15, 2021, and requires a modified retrospective method of adoption. In July 2018, the FASB issued two amendments to ASU 2016-02: ASU 2018-10, *Codification Improvements to Topic 842, Leases*, which provides various corrections and clarifications to ASU 2016-02; and ASU 2018-11, *Leases (Topic 842): Targeted Improvements*, which provides a new optional transition method and provides a lessor with practical expedients for separating lease and nonlease components of a lease. Entities will apply a modified retrospective approach at either the beginning of the earliest period presented or at the beginning of the period of adoption through a cumulative-effect adjustment to retained earnings. Management is currently evaluating the impact of adopting this guidance on RSF's consolidated financial statements.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. The standard will replace today’s “incurred loss” model with a “current expected credit loss” (“CECL”) model. The CECL model will apply to estimated credit losses on loans receivable, held-to-maturity debt securities, unfunded loan commitments, and certain other financial assets measured at amortized cost. The CECL model is based on lifetime expected losses, rather than incurred losses, and requires the recognition of credit loss expense in the consolidated statement of activities and a related allowance for credit losses on the consolidated statement of financial position at the time of origination or purchase of a loan receivable or held-to-maturity debt security. Likewise, subsequent changes in this estimate are recorded through credit loss expense and related allowance. The CECL model requires the use of not only relevant historical experience and current conditions, but reasonable and supportable forecasts of future events and circumstances, incorporating a broad range of information in developing credit loss estimates, which could result in significant changes to both the timing and amount of credit loss expense and allowance. Under ASU 2016-13, available-for-sale debt securities are evaluated for impairment if fair value is less than amortized cost. Estimated credit losses are recorded through a credit loss expense and an allowance, rather than a write-down of the investment. Changes in fair value that are not credit-related will continue to be recorded in other comprehensive income. The ASU also expands the disclosure requirements regarding assumptions, models, and methods for estimating the allowance for loan losses. In addition, entities will need to disclose the amortized cost balance for each class of financial asset by credit quality indicator, disaggregated by the year of origination. ASU 2019-10 extended the effective date of ASU 2016-13. The effective date for nonprofit entities is for fiscal years beginning after December 15, 2022. Early adoption is permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Entities will apply a modified retrospective approach through a cumulative-effect adjustment to net assets as of the beginning of the first reporting period in which the guidance is effective. While RSF believes that the change from an incurred loss model to a CECL model has the potential to increase the allowance for loan losses at the adoption date. The impact of the adoption of the amendments to RSF’s consolidated financial position or consolidated statement of activities cannot be reasonably quantified at this time due to the complexity and extensive changes from these amendments. RSF is evaluating tools to forecast future economic conditions that affect the cash flows of loans over their respective terms. Management is currently evaluating the impact of adopting the guidance on RSF’s consolidated financial statements.

NOTE 3 – LOANS RECEIVABLE, NET

As of December 31, 2020 and 2019, RSF’s total loans receivable are summarized by loan category in the following table:

	<u>2020</u>	<u>2019</u>
Education and the arts	\$ 51,311,111	\$ 55,135,721
Food and agriculture	43,957,023	46,763,412
Climate and environment	<u>12,613,460</u>	<u>16,427,283</u>
Subtotal	107,881,594	118,326,416
Allowance for loan losses	<u>(5,643,940)</u>	<u>(3,134,317)</u>
	<u>\$ 102,237,654</u>	<u>\$ 115,192,099</u>

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

RSF extends credit to organizations that are mission-related. Interest rates on newly originated loans ranged from 3.00% to 10.00% during 2020, and from 5.50% to 8.50% during 2019. RSF performs ongoing credit evaluations of borrowers, maintaining allowances for potential credit losses, when appropriate.

For certain extensions of credit, RSF may require collateral, based on its assessment of a borrower's credit risk. RSF holds various types of collateral, including real estate, accounts receivable, inventory, equipment, guaranties, and financial instruments. Collateral requirements for each borrower may vary according to the specific credit underwriting, terms and structure of loans funded immediately or under a commitment to fund at a later date.

Certain commitments are subject to loan agreements with covenants regarding the financial performance of the borrower or borrowing base formulas that must be met before RSF is required to fund the commitment. RSF uses the same credit policies in extending credit for unfunded commitments in funding loans. In addition, RSF manages the potential risk in credit commitments by limiting the total amount of arrangements, both by organizations and/or affiliates, by monitoring the size and maturity structure of these loans and by applying the same credit standards for all loan activities. Although RSF believes the related collateral to be adequate, there is no assurance that the underlying assets have sufficient value to fully collateralize the outstanding balances. As of December 31, 2020 and 2019, the contractual amount of the unfunded credit commitments were approximately \$16,177,000 and \$15,570,000, respectively.

Investors have the option to enter into a limited guaranty agreement with RSF whereby the investor noteholder pledges their investor note to cover potential loan losses in a specific focus area within the portfolio. In 2020 and 2019, RSF had in place approximately \$6,286,000 and \$5,734,000, respectively, in limited guaranties from investors to provide for additional coverage for possible loan losses.

Rudolf Steiner Foundation, Inc.

Notes to Financial Statements

Below is an analysis of the allowance for loan losses for the years ended December 31, 2020 and 2019:

	2020	2019
Balance at beginning of year	\$ 3,134,317	\$ 3,138,298
Provision for loan losses	1,837,703	1,166,756
Recoveries (charge-offs), net	671,920	(1,170,737)
Balance at end of year	\$ 5,643,940	\$ 3,134,317
Allowance for loan losses individually evaluated for impairment		
Education and the arts	\$ 928,463	\$ -
Food and agriculture	151,837	-
Climate and environment	-	734,526
	\$ 1,080,300	\$ 734,526
Allowance for loan losses collectively evaluated for impairment		
Education and the arts	\$ 4,282,842	\$ 2,148,186
Food and agriculture	280,798	251,605
Climate and environment	-	-
	\$ 4,563,640	\$ 2,399,791

As of December 31, 2020 and 2019, the allowance for loan losses associated with the following loans is estimated on an individually evaluated basis. The tables below summarize key information for all impaired loans. The recorded investment in impaired loans includes accrued interest, deferred fees and deferred costs. Interest income recognized on a cash basis was not considered significant for separate disclosure.

	2020				
	Recorded Investment	Unpaid Principal Balance	Allowance for Loan Losses Allocated	Average Recorded Investment	Interest Income Recognized
With no related allowance recorded:					
Education and the arts	\$ 11,613,158	\$ 13,161,620	\$ -	\$ 11,953,355	\$ 673,346
Food and agriculture	148,687	147,705	-	193,393	12,348
Subtotal	11,761,845	13,309,325	-	12,146,748	685,694
With an allowance recorded:					
Education and the arts	4,996,393	4,896,090	928,463	4,998,190	165,881
Food and agriculture	238,240	236,988	151,837	297,217	18,325
Subtotal	5,234,633	5,133,078	1,080,300	5,295,407	184,206
	\$ 16,996,478	\$ 18,442,403	\$ 1,080,300	\$ 17,442,155	\$ 869,900

Notes to Financial Statements

	2019				
	Recorded Investment	Unpaid Principal Balance	Allowance for Loan Losses Allocated	Average Recorded Investment	Interest Income Recognized
With no related allowance recorded:					
Education and the arts	\$ 7,426,666	\$ 7,406,413	\$ -	\$ 7,735,199	\$ 247,761
Food and agriculture	1,361,670	1,354,628	-	1,438,737	84,253
Subtotal	8,788,336	8,761,041	-	9,173,936	332,014
With an allowance recorded:					
Education and the arts	-	-	-	-	-
Food and agriculture	-	-	-	-	-
Climate and environment	2,937,522	2,916,565	734,526	-	256,154
Subtotal	2,937,522	2,916,565	734,526	-	256,154
	<u>\$ 11,725,858</u>	<u>\$ 11,677,606</u>	<u>\$ 734,526</u>	<u>\$ 9,173,936</u>	<u>\$ 588,168</u>

Impaired loans are recorded at the lower of cost or fair value. The table below presents the balances of impaired loans measured at fair value at December 31, 2020, and 2019, on a nonrecurring basis.

	2020			
	Total	Level 1	Level 2	Level 3
Education and the arts	\$ 4,068,000	\$ -	\$ -	\$ 4,068,000
Food and agriculture	86,402	-	-	86,402
Total	<u>\$ 4,154,402</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,154,402</u>
	2019			
Climate and environment	\$ 2,202,994	\$ -	\$ -	\$ 2,202,994
Total	<u>\$ 2,202,994</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,202,994</u>

The following table presents loans by class, modified as troubled debt restructurings that occurred during the years ended December 31, 2020 and 2019:

	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment
<u>December 31, 2020</u>			
Food and agriculture	2	\$ 465,439	\$ 465,439
<u>December 31, 2019</u>			
Education and the arts	3	\$ 1,873,425	\$ 1,873,425
Food and agriculture	3	\$ 448,459	\$ 448,459

The modifications of loan terms during the years ended December 31, 2020 and 2019, included lowering principal and interest payments and payment deferrals.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

There were no troubled debt restructurings for which there was a payment default within 12 months following the modification during the years ended December 31, 2020 and 2019

Loan concentrations may exist when there are amounts loaned to borrowers engaged in similar activities or similar types of loans extended to a diverse group of borrowers that would cause them to be similarly impacted by economic or other conditions. The concentration of loans to schools was approximately 27% and 24% at December 31, 2020 and 2019, respectively. Based on current economic conditions, schools may be subject to a drop in tuition revenue and/or state funding. RSF monitors the underlying economic or market conditions for these areas within their credit risk management process, including schools' financial health by reviewing reports submitted by the schools as required by their loan covenants, conducting site visits and staying in regular contact with the school administrators.

Management assesses the credit quality of its loans with a risk rating system, where loans are classified in the following categories: pass, watch, special mention, substandard, doubtful and loss. The risk ratings reflect the relative strength of the sources of repayment.

Pass – These loans are generally considered to have sufficient sources of repayment in order to repay the loan in full in accordance with all terms and conditions. These borrowers may have some credit risk that requires monitoring, but full repayment is expected.

Watch or Special Mention – These loans are considered to have potential weaknesses that warrant close attention by management. Special mention may be a transitory grade and could include modified loans which are performing but retain this rating beyond six months. If any potential weaknesses are resolved, the loan is upgraded to a pass or watch grade. If negative trends in the borrower's financial status or other information is presented indicating that the repayment sources may become inadequate, the loan is downgraded to substandard.

Substandard – The loans are considered to have well-defined weaknesses that jeopardize the full and timely repayment of the loan. Substandard loans have a distinct possibility of loss if the deficiencies are not corrected. Additionally, when management has assessed a potential for loss but a distinct possibility of loss is not recognizable, the loan is still classified as substandard.

Doubtful – These loans have insufficient sources of repayment and a high probability of loss.

Loss – These loans are considered to be uncollectible and are, therefore, charged off.

These internal risk ratings are reviewed continuously and adjusted for changes in borrower status and the likelihood of loan repayment.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

The following table shows the gross loan portfolio allocated by management's internal risk ratings at December 31, 2020 and 2019:

	Credit Risk Profile by Internally Assigned Grade			
	Education and the Arts	Food and Agriculture	Climate and Environment	Total
<u>2020</u>				
Grade:				
Pass	\$ 12,130,391	\$ 15,767,300	\$ 6,132,186	\$ 34,029,877
Watch list/special mention	26,340,968	27,252,521	6,481,274	60,074,763
Substandard	5,436,276	698,962	-	6,135,238
Doubtful	7,403,476	238,240	-	7,641,716
Loss	-	-	-	-
Total	<u>\$ 51,311,111</u>	<u>\$ 43,957,023</u>	<u>\$ 12,613,460</u>	<u>\$ 107,881,594</u>
<u>2019</u>				
Grade:				
Pass	\$ 41,294,799	\$ 41,554,646	\$ 13,297,948	\$ 96,147,393
Watch list/special mention	8,616,266	3,847,095	191,814	12,655,175
Substandard	3,027,465	1,361,671	2,937,521	7,326,657
Doubtful	2,197,191	-	-	2,197,191
Loss	-	-	-	-
Total	<u>\$ 55,135,721</u>	<u>\$ 46,763,412</u>	<u>\$ 16,427,283</u>	<u>\$ 118,326,416</u>

The following table shows an aging analysis of the loan portfolio by the time past due at December 31, 2020 and 2019:

	30-89 Days Past Due	90 days and Still Accruing	Nonaccrual	Total Past Due and Nonaccrual	Current	Total
<u>2020</u>						
Education and the arts	\$ -	\$ -	\$ 3,129,285	\$ 3,129,285	\$ 48,181,826	\$ 51,311,111
Food and agriculture	-	-	-	-	43,957,023	43,957,023
Climate and environment	-	-	-	-	12,613,460	12,613,460
Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,129,285</u>	<u>\$ 3,129,285</u>	<u>\$ 104,752,309</u>	<u>\$ 107,881,594</u>
<u>2019</u>

NOTE 4 – INVESTMENTS AND FAIR VALUE MEASUREMENT

The tables below present the balances of assets measured at fair value at December 31, 2020 and 2019, on a recurring basis:

	2020				Net Asset Value
	Total	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$ 74,929,183	\$ 74,929,183	\$ -	\$ -	\$ -
Corporate securities	7,130,756	3,911,245	-	3,219,511	-
Investments, held at net asset value					
Private debt funds	5,045,788	-	-	-	5,045,788
Private equity funds	3,640,711	-	-	-	3,640,711
	<u>\$ 90,746,438</u>	<u>\$ 78,840,428</u>	<u>\$ -</u>	<u>\$ 3,219,511</u>	<u>\$ 8,686,499</u>
	2019				Net Asset Value
	Total	Level 1	Level 2	Level 3	
Cash and cash equivalents	\$ 58,725,124	\$ 58,725,124	\$ -	\$ -	\$ -
Corporate securities	6,268,198	3,048,687	-	3,219,511	-
Government securities	67,386	67,386	-	-	-
Investments, held at net asset value					
Private debt funds	9,101,803	-	-	-	9,101,803
Private equity funds	3,203,947	-	-	-	3,203,947
	<u>\$ 77,366,458</u>	<u>\$ 61,841,197</u>	<u>\$ -</u>	<u>\$ 3,219,511</u>	<u>\$ 12,305,750</u>

RSF manages mission-related investments, excluding loans receivable, according to the RSF Investment Policy Statement. This policy establishes the overall investment objectives, social impact goals, and asset allocation and diversification parameters, due diligence requirements, performance management and policy compliance management.

Investments held at net asset value are primarily comprised of investments in funds and limited partnerships. Fair value associated with these investments has been based on information provided by the individual fund managers. RSF used the net asset value per share (or its equivalent) to estimate the fair value of these alternative investments.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

The investment nature of the alternative investments as of December 31, 2020, for which fair value is based on net asset value is as follows:

	<u>Fair Value</u>	<u>Unfunded Commitments</u>
Private Debt Funds	\$ 5,045,788	\$ -
Private Equity Funds	<u>3,619,963</u>	<u>1,114,125</u>
	<u>\$ 8,665,751</u>	<u>\$ 1,114,125</u>

Funds – RSF invests in two categories of funds. The first category consists of private debt funds that represent a diverse portfolio of industries and geographies. These funds invest in U.S. and non-U.S. debt instruments of privately held companies. Over 50% of these positions have monthly liquidity with a 30-day redemption notice period required, or shorter. The second category consists of private equity funds that represent a diversified group of select, primarily domestic, private equity, and venture capital limited partnerships. These investments are not generally eligible for redemption.

For investments for which there is no active market, generally referred to as “alternative investments”, fair values are initially based on valuations determined by using audited net asset values (“NAV”) as of their most recent audited financial statements, adjusted for cash receipts, cash disbursements, and other anticipated income or loss through year end.

RSF endeavors to ensure that the fair values of the financial instruments reported in the consolidated financial statements are appropriate and determined on a reasonable basis.

While RSF believes its valuation methods are appropriate and consistent with those used by other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. Those estimated values may differ significantly from the values that would have been used had a readily available market for such assets existed, or had such assets been liquidated, and these differences could be material to the consolidated financial statements.

The following summarizes the valuation methodologies and significant quantitative inputs and assumptions used for items categorized in Level 3 of the fair value hierarchy as of December 31, 2020 and 2019:

RSF’s valuation of Sustainable Produce Urban Delivery Inc. (“SPUD”) common stock, included in corporate securities, used the market approach method which derives fair value by reference to observable valuation measures for comparable companies or assets such as performance metrics and last round of financing subject to a 40-50% liquidity discount. The fair value of SPUD common stock was \$3,219,511 at December 31, 2020 and 2019.

The investment objective of the Level 3 investments is to seek returns from socially responsible companies and allow for the investor to exit at the opportune time. These funds include direct equity, and are intended to diversify the investment portfolio. There are no unfunded commitments in Level 3 investments as of December 31, 2020 or 2019.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

The following table is a roll forward of those investment assets classified as Level 3 as of December 31, 2020, and 2019:

	Corporate Securities
Beginning balance January 1, 2019	\$ 3,219,511

NOTE 5 – LIQUIDITY AND FUNDS AVAILABLE

The following table reflects RSF and its affiliates' financial assets as of December 31, 2020 and 2019, reduced by amounts not available for general expenditure within one year. Financial assets are considered unavailable when illiquid or not convertible to cash within one year or when held for others. Financial assets available to meet cash needs for general expenditures within one year as of December 31, 2020 and 2019:

	2020	2019
Financial assets		
Cash and cash equivalents	\$ 44,024,905	\$ 33,177,653
Mission-related loans and investments:		
Loans receivable, net of allowance for loan losses	102,237,654	115,192,099
Investments, at fair value	90,746,438	77,366,458
Investments, held at cost	8,960,315	8,691,048
Financial assets	245,969,312	234,427,258
Less those unavailable for general expenditure within one year, due to:		
Principal receivable from loans after December 31,	78,615,930	83,255,622
Illiquid investments, at fair value	90,746,438	77,366,458
Illiquid investments, held at cost	8,960,315	8,691,048
Board designated operating reserve account	4,946,750	5,194,776
Net assets with donor restrictions	582,105	150,000
Financial assets available to meet cash needs for general expenditures within one year	\$ 62,117,774	\$ 59,769,354

In addition to the financial assets available in the table above, RSF and its affiliates had approximately \$3,360,000 in limited loan guaranties as of December 31, 2020. Management structures RSF and its affiliates' financial assets to be available for general expenditures, including RSF investor notes payable redemptions and borrower draws on lines of credit, liabilities, and other obligations as they come due.

NOTE 6 – NOTES PAYABLE

Investor Notes Payable – Investor notes payable consist of funds received by RSF and its affiliates from individuals, organizations and/or corporations that would like to support mission-related projects.

Investor notes payable are carried at historical cost, which includes the total value of the principal investments plus accrued interest. Under FASB ASC Topic 825, Financial Instruments, the fair value of these notes is equal to the amount payable on demand at the measurement date.

At December 31, 2020 and 2019, RSF and its affiliates had unsecured investor notes payable totaling \$138,293,671 and \$131,430,578, respectively, with effective interest rates of 0.50% and 1.25%, respectively. Upon renewal, the principal amount of the note will include any elected reinvested quarterly interest.

Investor notes payable have a three-month renewable term and upon maturity these notes automatically renew unless RSF and its affiliates receive a request from the investors for repayment before the maturity date. RSF and its affiliates' management observes that the average term of an active investor is 9.2 years and that over the past three years only an average of 9% of total investor notes payable have been withdrawn annually by investors.

In the event that requests for note repayments are in excess of management's expectations, management is able to fund these requests by utilizing available cash and cash equivalents, proceeds from selling investments, and through additional borrowings available from RSF and its affiliates.

Other Notes Payable – Other notes payable consists of notes with maturities greater than one year. Other notes payable comprised the following notes for the years ended December 31 2020 and 2019. All unpaid principal balance and accrued interest are due upon maturity.

Issued	Original Principal Amount	Maturity Date	Interest Rate	Outstanding Balance at December 31,	
				2020	2019
December 2016	\$ 8,000,000	December 2021	2.00%	\$ -	\$ 8,000,000
June 2019	\$ 2,671,807	June 2022	2.50%	2,671,807	2,671,807
May 2019	\$ 310,000	May 2022	2.00%	310,000	310,000
January 2019	\$ 500,000	December 2021	2.25%	500,000	500,000
July 2019	\$ 2,000,000	June 2021	1.25%	-	2,012,688
October 2019	\$ 2,000,000	October 2022	2.50%	500,000	-
				<u>\$ 3,981,807</u>	<u>\$ 13,494,495</u>

Other notes payable are carried at historical cost, which includes the total value of the principal investments plus accrued interest. Under the ASC Financial Instruments, the fair value of these notes is equal to the amount payable on demand at the measurement date.

Notes to Financial Statements

In April 2020, RSF was granted a loan under the Paycheck Protection Program offered through the Small Business Administration under the Coronavirus Aid, Relief, and Economic Security Act (“CARES ACT”), for \$858,100 with a maturity date of April 21, 2022. The loan bears interest at 1% with no payments for the first 6 months. The loan was subject to partial or full forgiveness if RSF used all proceeds for eligible purposes; maintained certain employment levels; and maintained certain compensation levels in accordance with and subject to the CARES Act and rules, regulations, and guidance. The loan was forgiven in full in November 2020.

NOTE 7 – INCOME TAXES

Income taxes pertaining to CMP for 2020 and 2019 are provided for the tax effects of transactions reported in the accompanying consolidated financial statements, and consist of taxes currently due plus or minus deferred taxes. Deferred taxes relate primarily to temporary differences in loan losses, unrealized gains and losses, depreciation and amortization, certain accrued expenses and net operating loss carryforwards. The deferred taxes represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled.

The provision for (benefit from) income taxes consisted of the following for the years ended December 31, 2020 and 2019:

	2020	2019
Current:		
Federal	\$ -	\$ -
State	1,600	1,600
Total current tax provision	1,600	1,600
Deferred:		
Federal	(2,819)	(11,091)
State	(2,747)	(6,566)
Total deferred tax benefit	(5,566)	(17,657)
Change in valuation allowance	3,966	16,057
Provision for income taxes	\$ 1,600	\$ 1,600

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Deferred tax assets (liabilities) are comprised of the following at December 31, 2020 and 2019:

	<u>2020</u>	<u>2019</u>
Deferred tax assets:		
Net operating losses	<u>\$ 697,000</u>	<u>\$ 677,000</u>
Gross deferred tax assets	697,000	677,000
Valuation allowance	<u>(4,000)</u>	<u>(6,000)</u>
Total deferred tax assets	693,000	671,000
Deferred tax liabilities	<u>(693,000)</u>	<u>(671,000)</u>
Total deferred tax assets	<u><u>\$ -</u></u>	<u><u>\$ -</u></u>

At December 31, 2020 and 2019, CMP had \$2,505,327 and \$2,421,073 of federal net operating loss carryforwards, respectively. At December 31, 2020 and 2019, CMP had \$2,441,304 and \$2,406,844 of state net operating loss carryforwards, respectively. These federal and state net operating loss carryforwards expire beginning in 2028 for net operating losses generated 2017, and before, and carried-forward indefinitely for those generated in 2018 and 2019.

Certain activities not directly related to RSF and SIF's tax-exempt purposes are treated as unrelated business income, subject to federal and California corporate income taxes. For the years ended December 31, 2020 and 2019, federal and state income taxes on unrelated business income were not material.

NOTE 8 – NET ASSETS

Net assets without donor restrictions are the portion of net assets that have no use or time restrictions. This classification also includes reserves designated by the Board of Directors to be used to support day-to-day operations in the event of unforeseen shortfalls, to cover losses in the RSF Social Investment Fund and RSF Social Finance loan portfolios, and to pay for expenditures to build long-term capacity or infrastructure.

As of December 31, 2020 and 2019, net assets without donor restrictions consist of the following board designated reserves:

	<u>2020</u>	<u>2019</u>
Board designated operating reserve account	\$ 4,946,750	\$ 5,194,776

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Contributions received by RSF with restrictions are related to donor imposed time or purpose restrictions. As of December 31, 2020 and 2019, net assets with donor restrictions consist of the following:

	2020	2019
Donor restricted funds for RSF Shared Risk Program	\$ 50,000	\$ 50,000
Donor restricted funds for RSF Revolving Capital Permanent Fund	100,000	100,000
Donor restricted funds for Crisis Response Fund	297,930	-
Other donor restricted funds	134,175	-
Total	\$ 582,105	\$ 150,000

Net assets with donor restrictions are released from their restrictions once the time or purpose restriction is satisfied as specified by the donor.

There were no net assets released from donor restrictions for the years ended December 31, 2020 and 2019.

NOTE 9 – COMMITMENTS

As of December 31, 2020, RSF has the following commitments:

Lease – RSF leases an office facility in San Francisco, California under a noncancelable operating lease through May 2021. Effective September 1, 2020, the operating lease requires minimum monthly rental payments of \$25,518 subject to annual increases based on defined increases in the Department of Labor’s Bureau of Labor Statistics Consumer Price Index. In addition to minimum rental payments, the lease agreement provides for percentage rents based on tenant operating expenses exceeding stated amounts.

Rent expense under the operating lease totaled approximately \$127,000 and \$390,000 for the years ended December 31, 2020 and 2019, respectively.

The future minimum payments for the operating lease are as follows:

Year Ending December 31,

2021

\$ 127,592

NOTE 10 – RELATED-PARTY TRANSACTIONS

Investments – RSF’s investments consist of investments of which certain members of the Board of Directors are either board members of these companies and/or serve in an advisory capacity for certain members of the limited liability companies/nonprofit organizations.

Rudolf Steiner Foundation, Inc.

dba: RSF Social Finance and Affiliates

Notes to Financial Statements

Cash and Cash Equivalents – RSF has accounts with Amalgamated Bank, formerly New Resource Bank (NRB). Mark Finser, RSF Board Member and former RSF Board Chair, is a founder and chairman of NRB. Upon Amalgamated Bank’s acquisition of NRB in 2018, Mr. Finser became a director of Amalgamated Bank. The balances of the accounts were \$7,330,232 and \$8,444,881 at December 31, 2020 and 2019, respectively.

Note Receivable – On June 3, 2015, CMP entered into a Split-Dollar Loan Agreement (the “Loan Agreement”) with one of its key employees (“Employee”) pursuant to which CMP agreed to make seven interest-bearing, nonrecourse \$200,000 loans (“Split Dollar Loans”) to Employee over seven years. \$200,000 was funded in each year beginning in 2015. The interest rate on the first Split Dollar Loan was 2.50% and the interest rate on the remaining Split Dollar Loans were set at the Applicable Federal Rate per Treas. Reg. Section 1.7872- 15(e)(4)(ii) on the date such Split Dollar Loans were funded. On September 30, 2018, upon the no-cause termination of Employee’s contract, CMP was released from further obligation to make additional Split Dollar Loans. Accordingly, the first Split Dollar Loan was made to Employee on June 3, 2015, and subsequent Split Dollar Loans were made on or about May 12th of 2016 to 2018, for a total of \$800,000 in Split Dollar Loans. Each Split Dollar Loan was (1) made in the form of a premium payment to John Hancock Life Insurance Company to fund a life insurance policy (the “Policy”) with a face amount of \$2,981,078 on the life of Employee and (2) evidenced by a Promissory Note for Split Dollar Loan executed by Employee in favor of CMP.

The Split Dollar Loans fund all of the planned premiums for the Policy and are secured by a Collateral Assignment of Life Insurance Policy pursuant to which Employee assigned CMP an interest on the Policy, which provides that in the event of the death of Employee, the termination or surrender of the Policy, or the termination of the Loan Agreement, CMP is entitled to receive from the proceeds of the Policy the cumulative balance of principal and interest then owing on the Split Dollar Loans. The Loan Agreement is structured as nonrecourse in that should the Split Dollar Loans’ aggregate principal and interest balance exceed the proceeds from death benefit, surrender or other settlement of the Policy, Employee would not be obligated to repay CMP for the excess. Therefore, the asset carried by CMP is limited to the cash surrender value of the Policy, which was \$688,976 and \$703,547 as of December 31, 2020 and 2019, respectively, and is included in prepaid expense and other assets on the consolidated statements of financial position.

NOTE 11 – RETIREMENT PLAN

RSF has established a defined contribution plan and a retirement annuity money purchase plan covering all RSF full-time employees. RSF’s contribution to (the “Plan”) was a flat rate of \$2,500 per employee for the years ended December 31, 2020 and 2019. For the years ended December 31, 2020 and 2019, RSF contributed approximately \$72,000 and \$170,000, respectively, to the retirement plan.

NOTE 12 – RISKS AND UNCERTAINTIES

Concentration of Credit Risk – Financial instruments, which potentially subject RSF to concentration of credit risk, consist principally of cash and cash equivalents with high credit quality financial institutions, investments, and loans receivable. These instruments are also subject to other market risk conditions such as interest rate risk, equity market risks and their implied volatilities, mortgage risks and market liquidity and funding risks.

Rudolf Steiner Foundation, Inc.
dba: RSF Social Finance and Affiliates
Notes to Financial Statements

Cash and cash equivalents on deposit with financial institutions are guaranteed by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 for all interest and noninterest bearing cash accounts at all FDIC-insured financial institutions and/or by the Securities Investor Protection Corporation ("SIPC") as of December 31, 2020 and 2019. At various times during 2020 and 2019, RSF had cash balances in excess of the insured limits. RSF has not experienced any losses in such accounts and believes they are not exposed to any significant credit risk to cash.

Investments are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and such changes could materially affect total net assets and the amounts reported in the consolidated statements of financial position.

Impact from Coronavirus Outbreak – An outbreak of a novel coronavirus (COVID-19) occurred in the United States, along with various other countries globally. On March 11, 2020, the World Health Organization assessed the novel coronavirus outbreak and characterized it as a pandemic. Subsequent to the declaration of a pandemic, a variety of federal, state, and local governments have taken actions in response to the pandemic, which have ranged by jurisdiction, but are generally expected to result in a variety of negative economic consequences, the scope of which are not currently known or quantifiable. In addition, the Federal Open Market Committee of the United States Federal Reserve System lowered the federal funds target rate by 1.50%, reduced the rate for discount window loans, and took other actions to promote the stability of the financial system.

The duration and intensity of the impact of the coronavirus and resulting impact on the RSF is unknown. A broad-based reduction in interest rates may reduce RSF's interest income and/or net interest margin, may result in increased prepayments of mortgage loans, and may cause investors to redeem notes, thereby impacting RSF's liquidity. A reduction in economic output or a recession in the U.S. economy, both of which appear probable as a result of the pandemic, may also result in a decreased valuation of investments held by RSF.

NOTE 13 – SUBSEQUENT EVENTS

Subsequent events are events or transactions that occur after the consolidated statement of financial position date, but before the consolidated financial statements are available to be issued. RSF recognizes in the consolidated financial statements the effects of all significant subsequent events that provide additional evidence about conditions that existed at the date of the consolidated statement of financial position, including the estimates inherent in the process of preparing the consolidated financial statements.

RSF evaluated subsequent events through June 7, 2021, the date the consolidated financial statements were available to be issued and have determined that there are no subsequent events that require additional disclosure.
